

Hex Nut - Zinc

Product # FHNCZ38

Bolt Diameter/Size 3/8 in

Thread Count (Pitch/TPI) 16

Thickness 0.32 to 0.337 in

Tool to use 9/16 in

Packaging format Box of 2500

DESCRIPTION

These hexagonal nuts with coarse thread are made of Grade 2 steel. They are ideal for structure assembly.

ADVANTAGES AND BENEFITS

Coarse threads on Grade 2 steel hexagonal nuts enhance the grip and ensure a secure fastening. This is particularly important in applications where vibrations or external forces might otherwise cause loosening over time.

TECHNICAL SPECIFICATIONS

Product #	FHNCZ38
Material	Steel
Finish	Zinc
Thread Type	Coarse
Brand	Reliable
Steel Grade	Grade 2
Specific Application	Structure Assembly
Type of nuts	Hex Nut
