

## Hex Nut - Zinc

**Product #** FHNCZ38M1

**Bolt Diameter/Size** 3/8 in

**Thread Count (Pitch/TPI)** 16

**Thickness** 0.32 to 0.337 in

**Tool to use** 9/16 in

**Packaging format** Box of 1000

### DESCRIPTION

These hexagonal nuts with coarse thread are made of Grade 2 steel. They are ideal for structure assembly.

### ADVANTAGES AND BENEFITS

Coarse threads on Grade 2 steel hexagonal nuts enhance the grip and ensure a secure fastening. This is particularly important in applications where vibrations or external forces might otherwise cause loosening over time.
