Packaging format Box of 10000

DESCRIPTION

18-8 stainless steel assembly screw

These screws are well-suited for a wide range of applications, including woodworking, carpentry, and marine and outdoor projects where resistance to rust and environmental conditions is critical.

These screws have a Quadrex drive.

ADVANTAGES AND BENEFITS

- Stainless steel is renowned for its exceptional resistance to corrosion and rust, making it an ideal material for outdoor, marine, and high-moisture applications - The pan head offers a broad and smooth bearing surface for even load distribution - The coarse thread offers strong grip, while the regular wood point allows for easy penetration - The regular wood point design speeds up the installation process, making it particularly useful when you need to secure wooden materials efficiently
