DESCRIPTION

Zinc plated assembly screw

A versatile and commonly used fastener designed for a wide range of woodworking and carpentry applications. These screws have a Quadrex drive.

ADVANTAGES AND BENEFITS

- The pan head design features a low-profile, flat head with a slightly rounded top, resulting in a broad and smooth bearing surface which distributes load evenly - The coarse thread offers strong grip, and the regular wood point allows for easy penetration
- The regular wood point design speeds up the installation process, making it particularly useful when you need to secure wooden materials efficiently
