DESCRIPTION

Assembly screw with white colored head

A versatile fastener commonly used for assembling and securing cabinet components and other interior woodwork.

The white pan head adds an aesthetic touch to these screws, making them suitable for applications where a clean and finished appearance is desired.

ADVANTAGES AND BENEFITS

- Pan head design features a low-profile, flat head with a slightly rounded top, offering a broad and smooth bearing surface for even load distribution - Coarse thread offers strong grip, regular wood point allows for easy penetration - Regular wood point design speeds up the installation process, making it ideal for efficiently secure wooden materials
