

Black Zinc-Plated Wood Screw, Truss Head, Quadrex Drive, Coarse Thread, Regular Wood Point

Packaging format

Box of 1000

Box of 15000

DESCRIPTION

Installation screw for slides and small hardware

These screws are known for their durability, ease of installation, and corrosion resistance due to their black zinc plating. Each feature of these screws serves a specific purpose, making them versatile and reliable for various wood-to-wood applications. These screws have a Quadrex drive.

ADVANTAGES AND BENEFITS

- The black zinc plating not only enhances the corrosion resistance of the screws but also provides an attractive and sleek black finish
- The truss head design offers a low-profile, wide head with a slightly rounded top
- The coarse thread design provides a strong initial grip, allowing for rapid and secure penetration into the wood
