DESCRIPTION

These screws are a great choice for use in softwood, engineered wood, and particleboard. Constructed of zinc-plated steel, the particle screws are designed for durability, strength, and smooth performance. They feature a self-tapping, hi-low thread that provides improved and faster installation. The screws have a sharp regular point and are easily secured with a square driver. With their flat head and countersinking nibs, the screws provide a flush finish.

TECHNICAL SPECIFICATIONS

Head Type	Flat Head with Nibs
Drive required	Square
Thread Type	Hi-Low Thread
Point Type	Regular
Finish	Zinc
Brand	Reliable
Specific Application	Various
Type of Wood	Softwood, Engineered Wood
Standards and Certifications	Not Certified
Material	Steel
