Packaging format

Box of 2000	Box of 2500	Box of 3000	Box of 4000	Box of 5000
Box of 6000	Box of 7000	Box of 9000	Box of 11000	

DESCRIPTION

Low Driving Torque & No-split Hardwood Screw

Recommended for general use in all types of wood, plywood, and particleboards. Thread design and double cut point help eliminate splitting and allow for lower driving torque for reduced operator stress. Countersinking nibs under the flat head remove material for a clean finish.

ADVANTAGES AND BENEFITS

Double Cut Point: - Immediately grips the wood surface for a quick start, cutting the wood fiber and driving in easily - Low driving torque eliminates wood splits, saves effort, and reduces fatigue stress on the hands - Durable: can be screwed into and out of hard wood many times without snapping - Sufficient and safe holding power - Cutters can penetrate hard woods easily without a pilot hole

TECHNICAL SPECIFICATIONS

Head Type	Flat Head with Nibs
Drive required	Quadrex
Thread Type	Coarse Thread
Point Type	Double Cut Point
Function	Assembly
Brand	Reliable
Head Size	no. 8
Drive Size	#2 (Red)
Threading	Partial thread
Material	Steel
Thread Count (Pitch/TPI)	9
